

Discovering the Discovery Zone

This lesson is designed to help students explore, assess, and apply criteria for analyzing postsecondary options. Students will match career options to their own criteria to determine the best fit for them.

OBJECTIVES

Students will...

1. Explore the *Discovery Zone* activities
2. Learn about potential careers
3. Understand the education level and areas of knowledge needed for potential careers
4. Identify a career category of interest

ACTIVITIES

PART 1

Content Knowledge

Lead a class discussion with students about career exploration.

Explain to students that completing the following tasks can help lead them to potential careers:

1. Identifying interests, subjects, and values that may apply to a potential career path
2. Identifying the necessary skills and areas of knowledge that will make them employable in the future
3. Developing short and long-term goals

Explain to students the benefits of early career exploration:

1. Improvement of academic performance
2. Improvement of attitude and motivation
3. Motivation to create a high school course plan
4. Motivation to create a postsecondary plan

PART 2

Critical Thinking/Creative Application

Have students log in to MEFA Pathway and navigate to *Careers Discovery Zone* under the *Discover Careers* tab. Students should then select the *Careers Discovery Zone* activity they would like to explore.

Grade Level: 8

MEFA PATHWAY SECTIONS WITHIN THIS LESSON:

- Discovery Zone
- Document Upload

DOMAIN:

- College and Career Exploration

TIME:

- 45 minutes

MATERIALS NEEDED:

- Internet connection to work with the MEFA Pathway website
- Career Category handout (included)

FUTURE READY SKILLS:

- Evaluating
- Critical Thinking

VOCABULARY:

- Career Exploration
- Academic Performance
- Postsecondary Plan
- Career Category

Email any questions to:
info@mefapathway.org

LESSON PLAN

- *Everyday Things* allows students to explore careers based on subjects or activities they enjoy
- *Says Who* exposes students to various careers by identifying on-the-job tasks related to specific work environments
- *Favorite Subjects* shows students the connection between the subjects studied in school to potential college majors and career options
- *Would You Rather* allows students to answer a series of questions to help them discover career categories of interest

The results of each *Discovery Zone* activity will generate a list of careers students can explore further. Students should select a career to view its details page, which includes a short summary, education level needed, median wage, career category, and areas of knowledge required. Students should save careers they would like to explore further by clicking the green *SAVE TO MY LIST* button, which will place the career on the student's *My Career List*. Encourage students to identify areas of knowledge they would need expertise in to pursue a particular career category.

PART 3

Applying Information

Once students have started saving careers to their *My Career List*, they should review and take note of career categories that appear repeatedly and identify a potential area of study.

Encourage students to think about courses they will take in high school to support a specific career category and ultimately to identify and build a postsecondary plan.

Encourage students to revisit the activities within the *Career Discovery Zone* to see if their areas of interests, favorite subjects, or career categories change or expand over time.

PART 4

Critical Thinking/Creative Application

Students should create an advertisement, billboard, flyer, collage, or video promoting the career category that has appeared the most on their *My Career List*. The creation should answer the questions included in the Career Category handout (attached), look professional, and use images.

After completion, have students upload the document to their *Document Library* on their *Dashboard* in MEFA Pathway.

Email any questions to:

info@mefapathway.org

Career Category Handout

1. What is the name of the career category selected?
2. What are the three most appealing careers to you in this career category?
3. What education, experience, and job training is required for these careers?
4. What are some of the daily tasks and work activities of these careers?
5. What are areas of knowledge that may be required of these careers?
6. What kind of wages could you make at these jobs?
7. What are some related professions?
