PART 1

Content Knowledge

1. Students should review MEFA's College Timeline/Checklist (included in this lesson) to learn about the different steps of applying to college. Students should take notes and identify things they need to decide on or learn more about, such as their college deadlines, essay topic ideas, and letters of recommendation writers.
2. Have students view MEFA's podcast episode, "[Deciding on a College](#)" to learn about 2 student's college application experience.
3. Have college-bound students identify steps applicable to their college application process using the College Timeline/Checklist. Have career-bound students review their career list and identify their favorite careers. Then have students review the career details page for each career and identify the skills needed to be successful in that field. Have all students review and update their *Future Path* on *My Digital Portfolio* to make sure it is accurate.

PART 2

In MEFA Pathway, students should navigate to the *My Colleges* under the *Explore Colleges* tab. Instruct students to review their college list and favorite their top colleges. Students should also click on the star to indicate the schools they plan on applying to.
