

Exploring Options for After High School

This lesson is designed to help students explore, assess, and compare postsecondary options. Students will match options to their own criteria to determine the best fit for them.

OBJECTIVES

Students will...

1. Identify and compare several postsecondary options
2. Choose a postsecondary option based on their criteria that fits with their interests, experiences, and needs
3. Develop criteria for analyzing postsecondary options
4. Discuss criteria needed for making educational decisions

ACTIVITIES

PART 1

Content Knowledge

Pre-reading for activity

1. Students should complete the *Making Goals & Action Plans* lesson.
2. Students should read the webpage, [Education Options After High School Toolkit](#), before this lesson starts. As they read, they should highlight or underline sections that are new information for them and mark any terms they need to understand better. When they come to class, they should be prepared to discuss the article and their own postsecondary preferences and career goals.
3. Students should create a list of criteria they can use for analyzing postsecondary options. This list will vary depending on each student's needs. You may wish to create a sample list to give students ideas. For example, student athletes will want to attend a school that offers their sport. So schools offering that sport would be part of the criteria used by student athletes.

PART 2

Applying Information

Ask the students to log in to MEFA Pathway and navigate to the *My Goals* page under the *Self Discovery* tab to review their saved career goals & strategies from the *Making Goals & Action Plans* lesson. Students should be prepared to offer additional options to further the discussion.

Grade Level: 11

MEFA PATHWAY SECTIONS WITHIN THIS LESSON:

- My Digital Portfolio
- My Goals

DOMAIN:

- College & Career Exploration

TIME:

- 45 minutes

MATERIALS NEEDED:

- Internet connection to work with the MEFA Pathway website
- Computer program to create a presentation
- Webpage: [Education Options After High School Toolkit](#)

FUTURE READY SKILLS:

- Evaluating
- Critical Thinking
- Growth Mindset
- Adaptability

VOCABULARY:

- Apprenticeship
- Vocational Program
- Transition

Email any questions to:
k12support@mefa.org

LESSON PLAN

PART 3

Evaluating Information

Students should log in to MEFA Pathway and go to their *My Digital Portfolio* to select an option in the *FUTURE PATH* box. Remind students that this selection could potentially change as they grow and their interests change.

PART 4

Critical Thinking/Creative Application

Divide students into groups and assign each group one of the postsecondary pathways. Students should create an informational technology presentation such as a PowerPoint, video, or webpage to present to the class.

Within their presentation, they should: identify their assigned pathway, and outline how to achieve that postsecondary goal; analyze and report pertinent information in an easy-to-read format; explain the criteria they used; and end their presentation stating what they learned.

Recap for students that they learned to create personalized criteria for identifying the best postsecondary option to pursue their career goals. Encourage students to review and revise their criteria as their postsecondary plans take shape.
